

The image features a circular logo with the text "BATi" in a dark green, serif font at the center. The text is surrounded by several concentric, hand-drawn style arcs in a light beige color. The arcs are of varying lengths and are slightly offset from each other, creating a sense of motion or a stylized circular frame. The overall design is clean and modern.

BATi

“Come to the very edge
of the water, gazing out
across the calm, washes over
like in a baptism of peace,
see that your shining self,
making the water sparkle
with a streaming galaxy...”

Organic

Stone and water is the reflection of Yin and Yang in nature, and in its finest example of the life wisdom. The idea of designing unique stone products for the bathroom which in our hectic and often stressful lives is fast becoming a sanctuary, a place to escape to a place to relax and pamper oneself for the day ahead.

Such a moon —
Even the thief
pauses to sing.

Furniture **Ubud** refers to page 37,41

In this series, I bring the image of bamboo as a source of inspiration in order to highlight their truly magical qualities: "bending beneath the force of the wind but regaining its former stature and splendour when the storm is over" - is particularly apt.

It is also used to symbolize the Daoist principle of giving before external pressures in order to transcend them, and enable the individual to achieve a state of inner peace and balance in harmony with elements.

O zen

Zen attached a fundamental importance to our link with nature. It values the purity of natural material, wholeness, and balance. This series implied the contrast of stillness and fluidity, and have surprising textural qualities, the roughness of rock - the rock in the bathroom, the ladder-screen style teak furniture - which offer air to flow in through while providing a framed vision of the view behind, to acquire the gifts of Zen, and in the process to learn a new way of tranquility .

BATi's stone products are marked with **BATi** logo. It is made with a special tool, carves the stone material directly and leaves only the **BATi** brand logo on the finished polished material.

All BATi's stone products only use 1 size and 1 type of letter characters and processed only in one method.

This **BATi** brand logo is to certify the original production of BATI BALI BAGUS, PT. Warranty valids only for products with **BATi** brand logo marked.

STONE CHARACTERISTICS

The characteristics of natural stones are the presence of various veins, colours, shades on the same plan, as well as micro-cracks and small-holes.

At the final stages of fabrication, the BATi products will go through complete procedures of control, such as mixing a proper colour resin with residues to refine the small-holes or micro-cracks.

These colours have to be approved from time to time, to maintain the characteristic of high quality products while maintaining the nature of the stone.

WORKMANSHIP TOLLERANCE

Because our products are artisan realizations made of natural stones, it's very likely that there are nuance of shades as well as various weight and dimension between pieces.

ADVICES

The utilization of a raised-up of mural -tap system, preferable without waste neither small broad, is recommended for the installation of our basins.

MAINTENANCE

All BATi products have gone through treatments that are safe for natural stones. All products are impregnated with pH balance type of chemicals. It is made for stone to ensure waterproof and anti calcareous.

In order for stone to preserve its characteristic quality and brightness, it is strongly advised not to use any abrasive products containing acids.

We recommend the use of pH-7 stone cleaners. For more detail in maintenance, please refer to BATi Stone-care Maintenance System.

Bati Bali

by **Marina Pandunata**

introduces solid marble products into a modern Western bathroom elements, believe that human mind need to be inspired with the touch of purity and serenity, to balance their hectic life style in which poised deeply into their nerve...

The beauty, originality, simplicity, and the *imperfectness* of natural stone ...

.....in which, with the depthness of our eyes, we view the magnificent beauty of this oldest earthly material,

.....in which, our hands feel the roughness such of a rock or the softness such of a *riverstone*.

We feel the energy flow toward our hands, feel it's aura of touching the stone - *touchstone*.....

All of these hints of nature... have influenced mostly all designs of BATi.

Besides as a functional bathroom elements and designed to have the look as sculptural and artistic object, the works of Marina Pandunata also inspired by Zen elements such as bamboo (the flexibility, the truly magical strength philosophy), water in many ways (river flows, water drops, waterfalls).
